# THE LIFE OF A STAR

*An insight into a star's lifecycle*

FRIDAY, 22 SEPTEMBER 2017 | 7 – 9pm

View the night sky with binoculars and telescopes from the Centre rooftop.

Celestial sights on Culture Night include:

- \* The Moon as a slender crescent
- \* The planet Saturn (given a clear south-western horizon)
- \* The autumn star groups will be prominent
- \* Looking east, the hearlds of winter coming into view.
